

Dear Parents/Carers,

I am writing to you today to inform you that we are giving each of our year 7 students a Science Revision guide to take home. Feedback from parents has been that they would like to see what their children are studying and be able to assist them at home. Therefore, I wanted to respond to that feedback.

This revision guide can support your child through years 7, 8 and partially into year 9 with its content. I will be asking the Science team to set homework from these revision guides so that you have a resource to help them at home. Please note that the content provides the foundations for all GCSE topics that will be studied.

I also recommend the website KS3 BBC bitesize as a resource to help their learning. It can be accessed using the following website link.

<https://www.bbc.co.uk/bitesize/subjects/zng4d2p>

I would also like to take this opportunity to inform you that students regularly receive formative assessment pieces to help ensure they are on track in Science. If there are areas of work that need to be addressed this is then completed with reteach in class. The first summative assessment point that will assign your child a progress grade will be completed at the end of year 7.

Thank you so much for your time.

Kind regards

Miss McCall

Head of Science

ARK Alexandra Academy
