

Dear Parents/Carers,

I am writing to remind you of the letter I sent back in February (before lock down) regarding the revision guide that was given to all year 7 students. Please can you help to ensure these revision guides are located at home so that we can use them to support your child's learning in school.

These revision guides will be very useful for the whole of year 8 and their year 9 studies as well as the foundations for their GCSE's. I will be asking the Science team to set homework's from these revision guides so that you have a resource to help them at home. In these times if your child is unable to come into school then these books will also be a really useful tool to guide home learning.

For home learning I also recommend the website KS3 BBC bitesize as a resource to help their learning. It can be accessed using the following website link. <https://www.bbc.co.uk/bitesize/subjects/zng4d2p>

I would also like to take this opportunity to inform you that students regularly receive formative assessment pieces to help ensure they are on track in Science. If there are areas of work that need to be addressed this is then completed with reteach in class. The first summative assessment point that will assign your child a progress grade will be completed in term two as they were unable to complete their end of year exam in year 7.

Thank you so much for you time and for supporting your child with their studies this year. If you have any queries, please contact me via the email: a.garlington@arkalexandra.org.

Kind regards,

Miss Garlington

Head of Lower School Science

Miss McCall

Head of Science Department

Ark Alexandra Academy

Principal: Mr L Collins
Regional Associate Principal: Ms V Cockram
Network Associate Principal: Mr J Scafe
